VOL. II.

GLENDALE, LOS ANGELES COUNTY, CAL., SATURDAY, FEBRUARY 9, 1907.

No. 41

City Trustees

The meeting Wednesday evening was devoid of special interest. There was a petition presented requesting an ordinance to be enacted, imposing building restrictions on Glendale avenue between Third and Fourth streets, and considerable discussion ensued. The city attorney stated that an ordinance would be required to accomplish this result, and that some time must elapse before it could be made operative. It seemed to be the general opinion that some such ordinance is necessary, and it will probably be put thro as soon as possible; the matter being for the present referred to a committee.

Representatives of the Salt Lake Co. were present, but nothing definite was done in regard to their application for track down the alley from First street. An agreement seems to have been reached, however, by which the railroad company will run down on their own recently acquired land, instead of having a 'side' track on the avenue as at present. There will be no switch below Second street.

The report of the committee appointed to engage a dog catcher was made by Mr. Jennings, who reported his inability to secure any one for that position so far.

The matter of issuing bonds for a city hall and for securing fire extinguishing apparatus, was then taken up. There was no discussion of the matter, and the ordinance calling a bond election for February 26th was read three times and ordered printed. Particulars in regard to the same appear in our advertising columns.

GLENDALE'S OPPORTUNITY.

A bill is about to pass the Legislature to sell the Normal School grounds in Los Angeles, for which the State paid \$8000 and for which there is a standing offer of \$500,000; so it is likely to be sold, as the present location has become unsatisfactory. It is proposed to build on a new site in some nice suburb. And where can so ideal a spot be found for the purpose as Glendale? Good water, good air, no mud, no dust, equable temperature, no saloons, a highly moral and intelligent community; no better spot can be found anywhere for the purpose.

A free site of 10 or 15 acres must be presented to the State.

Some of our large landholders could not do better for their own interests than to give such a site outright, and the Interurban road would no doubt make satisfactory special rates for students, as it would be a big thing for them, too.

We understand our Board of Trade is already at work upon the proposition and we shall expect every citizen to give his enthusiastic co-operation.

FEDERATION OF WOMEN'S CLUBS CONVENTION.

The annual convention of the State Federation of Women's clubs is being held in Bakersfield. Three hundred delegates are in attendance.

THE BOND ELECTION.

As appears by the ordinance published on another page, the call has been made for an election to be held on the 26th of February to determine whether the City of Glendale shall now have a City Hall and a fire department. The proposal is to vote bonds to the amount of \$17,000 to purchase an additional lot (the city now owning one on Fourth street) and erect thereon a building for municipal purposes, and another issue to the amount of \$5,000 for fire extinguishing apparatus. The first series of bonds to be forty in number, of the denomination of \$425 each, and the second to be forty in number of the denomination of \$125 each, interest at six per cent per annum. Bonds to run forty years, one bond payable yearly. The proposition has so much to commend it that we shall not, at present, devote much space to its discussion. A few facts may be mentioned as a premise upon which a logical argument may be based, if one is needed. Glendale is growing as rapidly (to be conservative) in proportion to its population as any place in Southern California. It has just begun to grow. We all believe that its growth will continue until it is recognized as one of the principal cities of our country. The invariable history of such communities when once started on their course of development, proves that the sooner public works and improvements are secured, the better, and the cheaper it is for the taxpayers. We need a City Hall; the housing of the city government in its present rented quarters indicates cheapness, parsimony—the overgrown country village. If the people who have invested here wish to deserve a reputation of this sort, and to have visitors receive this kind of an impression as to what Glendale is, they will not, of course, approve of the issue of bonds. But we do not believe that many of our people are of this class; we believe in their intelligence, progressiveness and loyalty to their own. Approximately, the annual cost to the taxpayer will be about the third of one per cent on the assessed valuation of his property; this for the first year. After the first year the cost will rapidly decrease, first because the principal will be growing less, and second because of the increased taxable property to bear the burden. Here is a concrete example: You have a lot worth \$500; it will probably be assessed at \$200. The tax on this amount for this bond issue will be about seventy cents. On an assessed valuation of \$1000 it will amount to about \$3.50 yearly. Is not the difference to your property, although on the extreme limits of the city, as between the present alleged "City Hall" and an up-to-date handsome building, worth more than this amount on every thousand dollars of the assessed value of your property?

The pride of home and an enlightened self interest, make it a foregone conclusion that the necessary two-thirds of the votes at the election on the 26th will be cast in favor of the proposition.

NEWS OF THE WEEK.

Illinois produced last year a corn crop valued at \$124,981,051.

Associated Press admits that story in regard to storage of copper, in order to artificially increase value of this metal, was an unfounded hoax; that it was imposed upon by parties in effort to affect the market.

In New York is to be organized soon the National Copper Bank, and with deposits of twenty millions will represent the most of the large copper interests of the country. John D. Ryan will probably be its president.

Los Angeles Chamber of Commerce adopted resolution, which is telegraphed President Roosevelt, to the effect that Southern California is opposed to any discrimination against the Japanese as a people in the matter of school privileges.

In Thaw trial, testimony of the prosecution all in. Defense puts Mrs. Thaw on stand, who tells story of experience with White, which if not disproved will probably secure acquittal of prisoner.

Mayor Schmitz, Directors Walsh, Boyle, Oliver and Altman, Supt. of Schools Roncovieri and Asst. City Attorney Williams of San Francisco, left San Francisco Sunday for Washington, upon invitation of the President to confer on school question.

Senator Cullom says: "This war scare is all bosh. I'd like to go to 'war' with Senator Perkins for talking as he did last night. There is no more chance of our going to war with Japan over this little school question than there is of fighting China, Russia or Great Britain."

Franklin K. Lane, the Democratic member of the Interstate Commerce Commission, is to investigate in Los Angeles the pooling system and other schemes by which Southern California railroads are stifling competition.

The Civil Service Pension bill passed the Senate Jan. 11th, granting a pension to every surviving soldier of the civil war, regardless of disability. The minimum pension will be \$12 per month, reaching \$20 when pensioner is 75 years old.

The regular monthly meeting of the Glendale Board of Trade will be held at the office of Hurtt & Rogers on Saturday evening, February 9th. The general public cordially invited.

The Glendale Board of Trade extends an invitation to all those interested in the welfare and prosperity of Glendale, to come and join the Board of Trade. All members who have joined will please call on the secretary, and get their membership receipts. The dues for the quarter of February, March and April can be paid to the Secretary, now.

REAL ESTATE AND BUILDING.

The lumber yards report business never better. Many buildings in course of construction and others being figured on. On Brand boulevard and Fifth street a handsome residence is being erected by Mr. Fox of Los Angeles. On Orange street Mr. Dow's two-story modern eight-roomed house is being pushed to completion. Garfield Jones is building a story and a half house on C street in the Jones Home tract. It has an artificial stone foundation and will probably cost \$3500. The foundation of Mr. F. W. McIntyre's residence on C street below Third is completed and the frame is in place. We have not seen the plan, but understand that this is to be one of the finest residences in Glendale.

The contract for the erection of the Country Club house, corner of Third and Brand boulevard, was to be let this week.

Lots have been in good demand during the past week, and homeseekers are becoming more numerous every day.

Messrs. Cole and Albright report the following:

Three lots on Fourth street adjoining the lumber yard, to the Valley Lumber Company. Lot 16, block 59, on L street between Fourth and Fifth streets.

Lot 17 in block 2, Glendale Boulevard tract, on Orange street.

Lot in the Valley View tract, on Ida street.

L. A. Jones has purchased and moved into the W. H. Witham residence on E street between Third and Fourth streets.

And here's Bro. Glover of the South Pasadena complaining that he hasn't received the News! 'Tis sweet to be missed and remembered. And he has been without it a month! Well, well; this is serious; we tremble at the thought of dire possibilities just escaped, and shall be more careful in future.

What is the matter with our esteemed contemporary, the Los Angeles Times?

It must be that in hunting up the war paint which has been in evidence in its pages lately, it unintentionally spilled the pot of yellow over itself, or one of its reporters, for it gave us the other day a circumstantial account of an alleged "confession" of the robbery of the Glendale postoffice by one of a trio of prisoners in the Los Angeles city jail, which proved to be without foundation.

Mistakes will happen, even in the families of the great and good.

Mr. Hobson

The Hon. Mr. Captain Richard Pierson Hobson (have any escaped?) has had himself interviewed upon the subject of war with Japan.

The honorable captain is of the opinion that war is inevitable unless Japan backs down; that she wants to fight and is being egged on by Great Britain!

Here, Mercury, thou fleet-footed but sometime inebriated messenger, bring hither my annotated Shakespeare. Ah! here it is:

Dogberry: "I am a wise fellow; and, which is more, an officer, and which is more, as pretty a piece of flesh as any in Messina . . . Oh that I had been writ down an ass."

What Japan Really Thinks

Ever since the "special correspondent" at Honolulu began to people the Sandwich Islands with a horde of Japanese, (veterans of the Manchurian campaign, etc., etc.) we have been looking for some verification of the stories by the Associated Press.

This has not yet arrived, but we find in lieu thereof the following by Associated Press from Tokio:

"The correspondent of the Associated Press has talked with several leading men, both in and out of the government. They concur in the opinion that the United States is the last country with which Japan would go to war. Besides, both nations are unaggressive in their trade rivalries which seldom lead to war unless territorial acquisition is intended by

either rival. In some quarters the belief is expressed that the misrepresentation that Japan is suffering from, on account of the San Francisco school controversy is the outcome of immunity shown disaffected war correspondents in the late Russian war. It is believed that these correspondents are ever watching for occasion to victimize Japan. Even those inclined to be chauvinistic ridicule the idea of war with the United States. The Japanese press has been silent so far, apparently considering the matter unworthy of comment."

"What's Sauce for the Goose, etc."

A rumor to the effect that President Roosevelt's plan for smoothing out kinks in the Japanese question, consists in agreeing to a new treaty which shall exclude American laborers from Japan, while Japanese of the laboring class are excluded from the United States, gives rise to some peculiar ideas of "reciprocity." We are informed that the Senate would refuse to approve of such a treaty, on the ground that there are no class distinctions in this country, and that our people would resent any such discrimination.

If there are no class distinctions in this country, how comes it that we hear so much talk about the "work-iugman" and the "laboring classes?" But a more serious question than this presents itself: If the American people will not submit to having any class or portion of our people excluded from Japan, how can they with any decent pretense of fairness demand that Japan should humbly submit to such discrimination against its citizens? If the president should make such a proposition, and the San Francisco people should refuse to accede to it, he will have succeeded indisputably in putting them in the wrong before the world—if the world needs any further evidence of their wrongness.

This is aside from the merits of the proposition, which we are not as yet called upon to discuss.

The Mission of Modest Greatness

No, my son; it is not the San Francisco Fool Board that we are talking about; your ears deceived you, and you inadvertently did an injustice to a bunch of truly great statesmen who have gotten themselves into the lime light, and with the shrinking modesty of genius unadorned, are doing the best they can.

There is Mr. Ashmead, whose forbears were probably English; Mr. Ronceiveri, who ought to be an Italian not many generations back, and the great and good Mr. Schmitz, yet redolent with suggestions of Limburger; all high toned American citizens, by virtue of birth, naturalization or tolerance, speeding over the continent to lay their tribute of inspired knowledge at the feet of the great Theodore.

The sight is touching, my son, very touching; particularly so when we reflect that it is all being done for the sake of the little children of San Francisco—the dear little whurr children, who had the pre-natal excellent taste and judgment which led them to choose for themselves Caucasian parents. It is to save these little ones from the contaminating effect which would doubtless result from being compelled day after day to witness the sad spectacle of one or two little brown children in the same school-room with them, poring over a school book trying to become more familiar with "English as she spoke," so

that they may more successfully chase the elusive dollar, which the dear little white children of San Francisco are being taught to look upon as belonging exclusively to the elect who are members of their own particular brand of "Union."

And when good Mister Schmitz has so much that is interesting to occupy him at home, too! He had a pressing engagement in court, where he is engaged in proving that he and his dear friend Mr. Rueff, did not steal anything that they could not get away with. And he is the mayor of a great city, too, which in his absence is ex-

posed to the machinations of the Japanese within her gates and to the uncharitableness of the Philistines around her border.

But it will all be right, my son. When Theodore has seen, and heard and imbibed wisdom such as these modest, shrinking, public spirited citizens cannot refrain from imparting to him, the earth will revolve again about the sun, the stars will shine with their old-time lustre, and the blood will disappear from the face of the moon.

But hush, my son; do not speak of it as the San Francisco Fool Board.

AT SACRAMENTO.

As the custom is, the whole San Francisco bunch and a good many others, continue to go home on Friday night, leaving a minority unable to do business. And yet the business of the session which is half over is far behind. There has been a mass of bills put into the legislative hopper, many of them to be rushed through at the eleventh hour without any possibility or pretence of digestion. Senator Willis is after the patronage enjoyed by certain "official newspapers," and has introduced a bill requiring the Supervisors to contract for the publication of delinquent tax lists with the lowest responsible bidder instead of awarding the work on a favoritism basis. The bill is too business-like to become a law. Our representative from this district in the assembly, Dr. G. S. Case, has been heard from. He submitted a minority report from the committee on Capital and Labor, recommending that assembly bill number 39 do not pass. This is the bill similar to the one introduced in the Senate by Savage (of this district) making \$3.00 per day the minimum wage to be paid for a day's work by municipalities. The doctor has not succeeded in getting his name into print often, but we are glad to see that he is on the side of justice and common sense in regard to this outrageous proposition. There are certain measures which pop up at every session of the legislature, and two of this nature are to the fore again, they are the anti-vaccination and the Woman Suffrage bill. Senator Leavitt is the champion of the former in the Senate. It will be opposed there by Senator McKee, who is a doctor, and by any other member who has had any particular reason to study the subject. The same old arguments, based on the horrible case of a man who once was poisoned by vaccination, and the story of the poor people who keep their children out of the public school for fear of it, will be heard; and on the other hand there will be the same old array of quotations from statistics showing its efficacy, and in the end the law will remain as it is. Then there is the perennial Woman Suffrage question. "Always there is the array of female lobbyists, who by those arts of which women have a monopoly, secure the services of some fluent talker as the champion of their cause. Senator Price submitted their petition this time, but evidently in a perfunctory manner, for it was not even referred to a committee—quite probably it will bob up again, however. The ladies only ask for the submission of a constitutional amendment to the voters of the state; really not such a very unreasonable thing, if any considerable number of the sex desire it. The ladies must miss Senator Shortridge of Santa Clara, the Beau Brummel of the Senate. They could always depend upon him to get their question before the meeting, at least, and then Shortridge would turn loose a perfect storm of florid oratory upon the enraptured audience, for he was always prepared to champion any cause that gave him a chance to pose and talk.

Senator Caminetti has introduced a bill to provide for post graduate courses in our grammar schools; it will commend itself to those communities remote from high schools, and seems to be a meritorious bill which has some chance of becoming a law. The course proposed is to approximate the first two years of university courses.

Senator Carter of Los Angeles got the laugh on his colleagues and also

did a good stroke of business the other day when he went out into the open market and bought for one dollar apiece, two dozen chairs for the use of a senate committee which had agreed to pay four dollars apiece for chairs, until Carter objected and was appointed a committee of one to do better if he could—and he did! Transue's bill has passed the assembly, authorizing the trustees of the Los Angeles Normal School to sell the property at a price not less than \$500,000. The same bill failed to pass two years ago when the minimum price suggested was \$200,000. The Sacramento Union scores pretty severely those legislators who forced the reconsideration of Assemblyman Thompson's resolution, which limited the cost of junketing trips to the actual expenses of the committees engaged therein. We have not yet seen a record of the roll call on this occasion, but hope to have it soon to present to our readers. It was one of those questions upon which the dividing line is very distinctly drawn, between the honest representative of the people's interest and the grafter for personal gain. County Tax Collector Welch, of Los Angeles, is in Sacramento endeavoring to get a bill passed extending the time for the collection of taxes; he wishes the date of delinquency on the first payment moved forward to the last Monday in January, and the second until the last Monday in May, an extension of two months in each case. Mr. DeVlin, of Solano county, has introduced in the assembly a bill intended to rob railroads and other concerns and individuals of the right of self protection from strikers. It aims to prevent the employment of armed guards, strike breakers and private detectives. Ostensibly, it does not prohibit the employment of such persons, but hedges their employment about with so many restrictions, that the occasion for their services would have passed before they could go on duty.

Installation

The Good Templars of Burbank last Friday night installed the following officers: George Thedaker, Past Chief Templar; C. H. Learned, Chief Templar; Mabel Smith, Vice-Templar; Mrs. Swain, Chaplain; Paul Bley, Secretary; Earle Robinson, Financial Secretary; Harry Hixon, Treasurer; Walter Smith, Marshal; Evelyn Wood, Deputy Marshal; Will Farrar, Guard; Albert Thedaker, Sentinel.

An Outrage

We learn that a tent house on L street near Fifth, occupied by a woman and three children, was cut and slashed so as to render it almost useless by some hoodlum presumably during the absence of the owners a few days ago.

NOT WAGNER, BUT STRAUSS.

Mistaken by an error in a dispatch to our large contemporary, The Times, last week, we attributed an interview and the authorship of "Salomé" to Richard Wagner instead of Richard Strauss.

The error is quite inexcusable from the fact that we ought to have remembered that Mr. Wagner has been some time dead. We apologize to his shade and yet the Times has facilities for getting news (and interviews) which are almost uncanny!

At the meeting of the Tuesday Afternoon Club next week, the subject to be discussed will be "Domestic Life in Alaska and the Philippines." Mrs. Ezra Parker and Mrs. Church will have charge of the program for the day. A report will be received from the delegate, appointed some time ago, to the convention of the Federation of Women's Clubs, now in session at Bakersfield. There will also be a report given of the collections and disbursements made by the committee of the club, for the benefit of the San Francisco earthquake sufferers.

LIBRARY NOTICE.

The Glendale Free Library and Reading Room is open on Mondays, Wednesdays and Fridays from four to six o'clock.

Reception to Mr. and Mrs. Gulvin

The party given in honor of Mr. and Mrs. H. E. Gulvin, by Carnation Rebekah Lodge and Glendale Lodge, I. O. O. F., last Wednesday evening, was in every respect a very pleasant and successful affair.

About sixty of their friends were in attendance in honor of the guests of the evening. The hall was decorated for the occasion, and a very enjoyable musical and literary program was rendered.

Refreshments were served as a matter of course, and while the occasion was not one of rejoicing, on account of its being more in the nature of a farewell party, it was thoroughly enjoyed by the participants.

Mr. and Mrs. Gulvin have for such a long time been prominent in church, lodge and school circles, that they will be greatly missed by their many friends in Glendale, when they leave.

ORDINANCE NO. 38.
AN ORDINANCE REGULATING STREET WORK BY PRIVATE CONTRACT WITHIN THE CITY OF GLENDALE AND FIXING A PENALTY FOR THE VIOLATION THEREOF AND REPEALING ORDINANCE NO. 13.

The Board of Trustees of the City of Glendale do ordain as follows:

SECTION 1: Every person before commencing the construction of any sidewalk, curb, gutter, cross-walk, or the grading of any street, or any other street work on any public street, alley or public place within the City of Glendale, except where said work is to be done under a public contract for the same, shall make application to the Board of Trustees of said City for a permit to do such work, and it shall be unlawful for any person to do any such street work without such permit first having been obtained from the Board of Trustees of the City of Glendale so to do. The application for said permit shall be made on a printed form to be supplied by the City Clerk of the City of Glendale and it shall specify the place where the improvement is to be made, the nature and extent of the improvement, the time within which said work shall be commenced and when the same shall be completed and finished, and shall contain a statement that said permit is asked for and that said work therein described will be done subject to the terms and provisions of this ordinance.

All such work, upon permission being granted therefor, must in all cases be done under the direction and to the satisfaction of the Superintendent of Streets within the time specified in the application in accordance with the City's specifications for work of that class, and on lines and grades to be given by the City Engineer.

If the work does not, in the judgment of the Street Superintendent, comply with the specifications therefor and with the terms of this Ordinance, the Street Superintendent shall notify the person to whom the permit was granted of the defect or failure of performance of said work, and shall require such person within five days of the service of such notice to proceed to remedy such defect. Such notice shall be written or printed and shall be served personally or by leaving it at the residence or place of business of such person, or if such person cannot be found, and such place of business or place of residence is unknown or is outside of the city, said notice may be served by depositing it in the Post Office, postage prepaid, addressed to the person holding such permit at such place of business or residence, if known, or if unknown, in the City of Glendale.

If such notice is not complied with the Street Superintendent shall thereupon report such non-compliance to the Board of Trustees of said City and thereafter said Board shall not grant any permit to such person to do street work by private contract within the City of Glendale until he has made full compliance with the terms of said notice. And if such failure or defect in performance relates to the construction of cement walks or cement curbs the Board of Trustees may order the same taken up and removed from the street at the expense of the holder of such permit, which expense all applicants by making application hereunder hereby agree to pay.

SECTION 2: Every applicant, at the time of filing his application and before the same is presented to the Board of Trustees or considered by the said Board, shall deposit with the City Clerk the following fees:

For Engineer's fees for each lineal foot of sidewalk or curb proposed to be constructed:

If not exceeding 100 feet, per lineal foot, 4 cents.
 If over 100 feet and not exceeding 250 feet, per lineal foot, 3½ cents.
 If over 250 feet and not exceeding 500 feet, per lineal foot, 3 cents.
 If over 500 feet and not exceeding 1000 feet, per lineal foot, 2½ cents.
 If over 1000 feet and not exceeding 5000 feet, per lineal foot, 2 cents.
 If exceeding 5000 feet, per lineal foot, 1½ cents.

If an intersection corner alone is asked for \$2.00 per corner shall be paid.

Where a sidewalk and curb are to be constructed at the same time and place only one charge for engineering work shall be made unless such sidewalk and curb are required by the

person constructing the same to be laid out independently by separate engineering work done at different times. No engineer other than the City Engineer shall be permitted to set stakes or give the lines and grades for said improvements.

It shall be the duty of the City Engineer upon the payment to him of said fees, as aforesaid, to give the lines and grades for the performance of such work and upon the completion of such work to inspect the same and, if found to be on line and grade, to issue a certificate in duplicate of acceptance of the same as to line and grade and give one of such certificates to the holder of said permit and file one with the Street Superintendent.

If application be made for a permit for grading or any street work other than for the construction of a cement sidewalk or cement curb, the applicant shall, if such application be granted, before commencing work thereunder, deposit with the City Clerk a sum of money sufficient to pay the City Engineer for the engineering work that will be required in the performance of such street work, which amount shall be fixed by the Board of Trustees at the time of granting such permit, and such permit shall not go into effect or be issued until the payment of such fees.

For inspection fees:
 Fees at the same rate as fixed above for the City Engineer shall be deposited with the City Clerk in the same manner and at the same time as the fees for the City Engineer are herein required to be deposited, to pay the cost to the City for the inspection of said work and for the issuance of the final certificate of acceptance thereof by the Street Superintendent; and the City Clerk, upon the issuance of such permit, shall pay into the general fund of the City Treasury the amount of such fees for inspection and shall take the City Treasurer's receipt therefor.

It shall be the duty of the Street Superintendent to inspect all street work done by private contract under the terms of this Ordinance and report to the Board of Trustees any neglect or failure to comply with the terms of this Ordinance, and the permit granted in accordance therewith, for the performance of such work and to notify the holder of such permit of any failure or neglect of performance in the manner above specified.

Upon completion of the work to be done under any such permit it shall be the duty of the Street Superintendent to make a final inspection thereof and, if the same is found to be in accordance with the specifications for the same and in compliance with the terms of this Ordinance, and if a certificate of the City Engineer has been filed with him showing the same to be on line and grade, he shall issue a final certificate in duplicate of acceptance thereof, one of which certificates shall be delivered to the holder of such permit and the other placed on file in the office of the Street Superintendent.

SECTION 3: It shall be unlawful for any person to do any street work in the City of Glendale without first obtaining the lines and grades therefor from the City Engineer of said City, or to do the same except at the place and on the line and grade given therefor by the City Engineer.

HOIST-KENDALL NUPTIALS.

On Thursday evening at 7 o'clock, in private parlors of Hotel Angelus, a quiet wedding was solemnized when Esther Hoist became the wife of A. O. Kendall, Rev. J. H. Avery officiating. The parlors were tastefully decorated with potted plants and white carnations.

The bride was attired in a gown of merquils, trimmed with princess lace and pan velvet, over gray taffeta. She carried a shower of brides roses. The ring service was used. The bride's going away dress was of brown crepe de chine with gloves and hat to match. In the dining room, where the bride's supper was served, red and green carried out the floral effect. Guests at supper were Rev. and Mrs. J. H. Avery, Mr. and Mrs. Geo. Wood, Miss T. Calderwood and B. R. Davison. Birthday Surprise.

A large company of the members of N. P. Banks Post of G. A. R. and ladies of W. R. C. of Tropic, gathered at the home of Mr. T. M. Barrett of Burbank, Monday, February 1, and gave him a genuine surprise, in honor of his 65th birthday.

Mr. Barrett came into the house at the summons of his daughter, Mrs. Wilbur, and when he saw a housefull of his old army comrades and their ladies and friends his surprise was complete. Many were the happy remarks and well wishes of his friends for the coming years. A bountiful dinner was served and much time spent in relating reminiscences of other days. Mrs. Holmes G. Brown and Mrs. Leon K. Wilbur were called upon for music and readings, which they very cheerfully furnished, much to the delight of all present.

Very reluctantly was the first move made to depart for their homes, all agreeing that they had not enjoyed an occasion like it for many a day, and with kind hearts and handshaking they took their departure.
